Melvin Taylor, ATL ACO Manager

Date: 6/23/2007

Description of Type Design Change: Installation of cargo handling system for Type C containers in accordance with Aeronautical Engineers Report No. R-606, Revision A, dated June 5, 1986, or later FAA approved revision.

Limitations and Conditions: This approval is for the above design changes only and does not constitute approval for a cargo interior. This approval should not be extended to other airplanes of this model on which other previously approved modifications are incorporated unless it is determined by the installer that the interrelationship between this change and any of those previously approved modifications will produce no adverse effect upon the airworthiness of that airplane. This determination should include consideration of significant changes in weight distribution such as an increase in the fixed disposable weight in the fuselage.

This certificate and the supporting data which is the basis for approval shall remain in effect until surrendered, suspended, revoked, or a termination date is otherwise established by the Administrator of the Federal Aviation Administration.
